

Our innovative Water Base is light when empty yet sturdy when full. Stackable for easy transportation or shipping. It features two indentations for easy carrying as well as stainless steel fittings, tube, and special UV inhibitors. Needs no maintenance and handles any climate. A filler plug seal ensures no leakage while rain drainage holes and a ridged underside means no stains on the floor. This is the perfect solution for luxury homes, hotels, restaurants, events, promotional displays, camping or beach use, amusement parks, emergency barriers etc.
